# Bloody cranesbill 'Feu d'Automne'

*Geranium sanguineum* 'Feu d'Automne' Also known as: **Crane's bill** 'Feu d'Automne', **Geranium** 'Feu d'Automne'

Rating: 0.0 ( 0 votes)

This description is for **Bloody cranesbill 'Feu d'Automne'** (*Geranium sanguineum* 'Feu d'Automne'):

*Geranium sanguineum* is a trailing herbaceous perennial. This beautiful species is often called bloody cranesbill and has deep magenta-pink flowers throughout the summer months. Bloody cranesbill can be grown in both partial shade and full sun, and makes a welcome addition to the garden, particularly as a groundcover plant. Its trailing nature makes it ideal for the edges of borders and containers, where it will spill over the sides. *G. sanguineum* prefers well-drained soil that remains moist throughout the year. In periods of drought it will need watering.
