

# Bourgati's eryngo

*Eryngium bourgatii* Also known as: **Mediterranean sea holly**

Rating: 0.0 ( 0 votes)

This description is for *Bourgati's eryngo (Eryngium bourgatii)*:

## Mediterranean Sea Holly, half holly half mermaid.

Mediterranean Sea Holly a wonderful plant to add the sometimes difficult to come by vivid blue shades to your garden. Also known as *Eryngium bourgatii*, it sports dark green leaves and cone-like blue flowers during the summer months. Despite its exotic looks, this plant is easy to grow and is low maintenance, making it a great choice for the novice or time short gardener. It can cope with all that the British weather can throw at it, but does need protecting from wet winter weather conditions. Plant in full sunlight for the best results.
