Rating: 0.0 (0 votes)

This description is for *Courgette 'Black Forest F1'* (*Cucurbita pepo* 'Black Forest F1'):

Cucurbita pepo 'Black Forest F1' is also known as Courgette 'Black Forest'. It has pretty yellow flowers and the fruit are dark green and edible. This is a climbing plant with long stems that will need to be tied to a trellis or netting. This variety will give you a lot of fruit if you keep picking it regularly. The fruit is dark green, long and smooth, Some parts of the flower are also edible. It will grow well in a container, so is ideal for a compact garden if you're looking to grow vegetables.
