Rating: 0.0 (0 votes)

This description is for species *Golden crocus* (*Crocus chrysanthus*):

Crocus chrysanthus is a beautiful flowering perennial, also known as the Golden crocus. An early flowering crocus that will bring a little sunshine to your early spring garden with its' beautiful golden goblet shaped flowers. It's a small plant that grows close to the ground so plant it at the front of your borders or in a lawn. When it grows up through the snow it really looks stunning. Plant plenty of bulbs in groups for the most impact. The leaves are dark green and narrow and have a silver stripe running down their centre.
