

Japanese barberry 'Atropurpurea Nana'

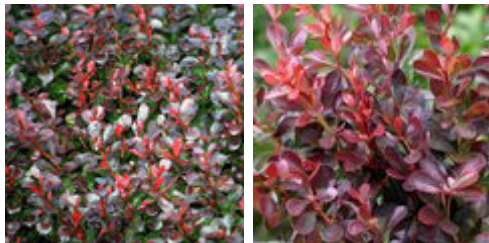

Berberis thunbergii 'Atropurpurea Nana' Also known as: **purple leaf barberry** 'Atropurpurea Nana', **Barberry** 'Atropurpurea Nana'

Rating: 5.0 (1 votes)

This description is for species *Japanese barberry* (*Berberis thunbergii*):

The stunning Japanese Barberry comes in different varieties, all with slightly differing names and alternative coloured blooms. It can be found in colours such as red, yellow, pink, or even as a shrub that remains green all the year round. All *Berberis thunbergii* are slow growing, taking up to 20 years to reach full maturity. Different varieties will grow to different sizes. Whichever type you choose, they're all easy to grow and require little maintenance once planted.
