

Mrs Robb's Bonnet

Euphorbia amygdaloides var robbiae

Rating: 0.0 (0 votes)

This description is for *Mrs Robb's Bonnet (Euphorbia amygdaloides var robbiae)*:

Does Mrs Robb know she's left her hat in your garden?

Euphorbia amygdaloides var robbiae also goes by the delightfully descriptive name of Mrs Robb's Bonnet. It's an evergreen plant that has bright green leaves and clusters of yellowish green flowers during the spring and summer months. It will thrive virtually anywhere, and a good choice for flowerbeds and borders, or anywhere you might need ground cover. However, it can be quite invasive, self seeding prolifically, so take care where you locate it if this might be an issue.
