

Persian buttercup

Ranunculus asiaticus Also known as: **Turban buttercup, Persian crowfoot**

Rating: 3.6 (5 votes)

This description is for **Persian buttercup (*Ranunculus asiaticus*)**:

Incredibly glamorous and available in a range of beautiful colours such as red, white, pink and yellow, *ranunculus asiaticus* or Persian buttercup could easily serve as the movie star of the plant world. Putting on a dazzling display with its stunning blooms, which can be double, semi-double or single flowers, Persian buttercup produces hairy lobed leaves and supports the flowers on hairy stems. Best grown where it will receive full sunlight, Persian buttercup likes sandy and loamy soils that have good drainage and is a star attraction in a flower bed. It will draw many fans to view it within a border, and garden visitors will be lining up to get a glimpse of this beauty if grown in a container within a courtyard garden or an outdoor seating space.
